

# PROFILE & SKILLS

## INTERNATIONAL MASTER'S IN DIGITAL SUSTAINABLE BUSINESS & E-COMMERCE

### WHAT IS THE PROFILE OF THE STUDENT?

The International Master's students follow a 12-month full-time course and a 5-month internship, which allows them to acquire a global understanding of the digital world and to address its main challenges.

Throughout their education at EBS, students are able to master digital business management and knowledge of all digital and new tech processes behind, with a deep understanding of marketing strategies with a strong CRM starting point and sustainability management. They also developed a perfect culture of retail and ecommerce in order to drive sales in their projects.

They are trained by professionals, experts in their fields, with a "Learning by doing" approach who offer students solid and accurate project practices.

At the end of their education and training, the students are able to become autonomous digital project managers, to engage on company's development challenges, implement new tech tools and embrace these careers:
